March 2008 Free Giveaway Sponsor - Hacker Halted

Free Conference Pass Worth $1195!!

Not only does EH-Net produce ChicagoCon 2008s, we also support a number of other security events. Hacker Halted, and event put on by EC-Council, is now added to the growing list. We're here to educate, and we think supporting other events is good for the entire industry.

Hacker Halted USA 2008 is held simultaneously with Techno Security 2008 in Myrtle Beach, SC. The event will also see the global rollout of the CEH v6 program from 28 May to 3 June 2008. "With a total of 28 new and never seen before modules, covering the latest concepts, featuring more real life cases, and showcasing the latest hacking and security tools, the Certified Ethical Hacker v6 will be the most advanced course ever." One lucky EH-Net member will be given a complimentary conference pass to attend both the Hacker Halted and Techno Security Conference worth $1195. You will get to hear from some of the top speakers in the information security field, network and meet fellow industry professionals, experts, and visit the exhibition, too. With forum participation again at an all time high last month, competition will continue to be stiff. Good luck.
