

December 2010 Free Giveaway Sponsor - Global Knowledge

Win CEH Boot Camp Worth \$3295!!

What a better way to spend the holidays than contributing to EH-Net... right? Well it may not be the best way, but you could win a CEH boot camp if you do. And not just any CEH course, but one provided by Global Knowledge. If you're not in the know:

"Global Knowledge is the worldwide leader in IT and business skills training. Leverage our security curriculum that includes the latest in vendor-specific training from Cisco, Microsoft, Foundstone, SonicWALL, Check Point and EC-Council, as well as certification prep courses for the CISSP, CompTIA Security+ and Certified Ethical Hacker exams. We deliver our courses via training centers, private facilities, and the Internet, enabling our customers to choose when, where, and how they want to receive training. Visit www.globalknowledge.com/security to learn more."

To make it even better, Global Knowledge's exclusive ethical hacker course is presented with content developed by CEH expert Michael Gregg (literally wrote the book). Read *The Technical Foundations of Hacking* from Michael Gregg's book, *CEH: Exam Prep 2* right here on EH-Net. Students will be immersed in an interactive environment, where you'll learn to footprint organizations, perform port scanning, and exploit a variety of systems and architectures. You'll get in-depth knowledge with follow-along demos and hands-on labs. While many CEH courses focus on an end-of-week exam, this ethical hacking course focuses on teaching you hands-on skills you can use. So what are you waiting for? Go hit the EH-Net Community Forums!
