

## September 2011 Free Giveaway Sponsor - Rapid7

Win Metasploit Pro Worth \$15,000!!

Being the month of my birth, why not go for broke, or in this case the opposite. With the help of Rapid7, we have once again set the bar at its highest level for the value of the prizes given away each and every month on EH-Net to top contributors. Back in April, Rapid7 gave you the chance to win your very own copy of Metasploit Express that includes the full license & support for 1 year. This time around, it's a full year license of Metasploit Pro with support included for a total value of \$15,000! Check out the EH-Net Exclusive video with HD Moore giving a guided tour of the newest release of Metasploit Pro with a sneak peak at v4. For a little more on the Pro edition:

"Metasploit Pro helps enterprise defenders prevent data breaches by efficiently prioritizing vulnerabilities, verifying controls and mitigation strategies, and conducting real-world, collaborative, broad-scope penetration tests to improve your security risk intelligence."

As with every month, all you have to do is participate on EH-Net. Let's open the field a bit, while we're at it. You still have to be a member of EH-Net, but let's see who can get the most outside sources to talk about, link to or mention the efforts of our little community. Let's blow this thing up!! I think the prize this month is quite worth it. Hope you do, too. Now get out there and spread the good word of EH-Net!!
